

Hands On Coffee™

Enhancing the coffee experience

Doser shuttle

How many **types of coffees** can you offer your customers at once?

Hands On Coffee™ enables you to offer an unlimited number of types of coffees without having to brew them all or having to brew 64 oz at a time!

Is every-one of your cups served ground **fresh** and **brewed fresh**?

Hands On Coffee™ grinds and brews your cup of coffee individually thus guarantying absolute freshness every time!

How many cups of coffee have been given out **for free** or not accounted for in your cash register?

Hands On Coffee™ has built-in counters to offer you full accountability!

How many **cups of coffee** do you throw down the drain every day?

Hands On Coffee™ enables you to make any specific coffee your customer wants one cup at a time without compromising taste or quality!

Hands On Coffee™

Enhance your coffee experience

Whether you operate a coffee shop, a restaurant, a hotel or a cafeteria, the Hands On Coffee™ system offers what your customers want; **a personalized coffee experience.**

By using its patented shuttle delivery system the Hands-On Coffee™ brewer breaks the boundaries on the variety of coffees offered because it brews whatever beans you put in it, one cup at a time! Think of the endless possibilities... Combine that with the best

extraction available with a TDS of 1200 and the Hands-On Coffee™ system becomes the best machine in the industry available today not to mention that it brings back the COFFEE CULTURE to where it was meant to be... **"A personalized coffee experience".**

Coffee experts across America already acknowledge that Hands On Coffee™ provides the best tasting American cup of coffee out of a single serve brewer.

At Cafecton Enterprises, our commitment to excellence has made us the leader in single cup brewing technology and our customer satisfaction towards our product line of Avalons over the last 15 years is proof of our dedication to quality.
